Acme supplier terms

1. Orders and confirmation

Acme sends purchase orders by email. The supplier confirms each order within two working days, stating the delivery date. An order that is not confirmed within two working days may be cancelled by Acme without cost.

2. Delivery

Goods are delivered to the Acme warehouse in Bhiwandi between 09:00 and 17:00 on working days. Each delivery carries a packing list with the purchase order number. Deliveries more than seven days late incur a penalty of 2% of the order value per week, up to 10%.

3. Quality and inspection

Acme inspects a sample of every delivery within five working days. If more than 3% of the sample is defective, Acme may reject the whole delivery. The supplier collects rejected goods at its own cost within ten working days.

4. Invoices and payment

The supplier sends one invoice per purchase order, quoting its number. Acme pays approved invoices within 45 days of receipt by bank transfer. Invoices with missing or wrong order numbers are returned unpaid.

5. Packaging and sustainability

Packaging must be recyclable and free of single-use plastic fillers. Lamps are packed so that glass parts cannot touch each other. From April 2027, every carton must show the supplier's name and the Acme SKU.

6. Termination

Either party may end the agreement with 90 days' written notice. Acme may end it immediately for repeated quality failures, defined as three rejected deliveries within twelve months.
